12	56 32.04 N	132 42.50 W	0

**Attention Pacific Northwest
Mariners**

**Active telecommunications cable is located along
the described route providing vital
communication link for Alaska**

IF YOU SUSPECT THAT YOUR GEAR or ANCHOR IS SNAGGED ON THE ALASKA UNITED FIBER SYSTEM CABLE, PLEASE NOTIFY GCI NETWORK OPERATIONS CENTER AT 1 888 442 8662 or 907 868 5555.

If your gear or anchor does snag something you think may be a cable, please don't try to lift it. After some initial slack is taken up, it may become extremely hard to lift, and this could threaten your vessel's stability. Furthermore, this active cable may carry up to 1,700 volts of DC electricity.
